

2nd Congress of the
European Academy of Paediatrics

Nice, France, October 24-28, 2008

From Basic to Practice

List of available sessions from the 2nd Congress of the European Academy of Paediatrics, 24-28 October, 2008, Nice, France

Genetic influences on human social cognition

D. Skuse

Genetic susceptibility to infections

P. Tissieres

Use of biomarkers in paediatric brain injury

P. Kochanek

Retinopathy of prematurity: novel insights into pathogenesis

S. Chemtob

Neurogeneses: time, timing and cognition

R. Nowakowski

Metabolic responses to inflammation

K. Joosten

Molecular imaging of inflammation using novel contrast agents

N. Sibon

Intercultural differences in end-of-life decision making

D. Devictor

Listening to the voice of the child

F. Carnevale

Eol : the point of view of the philosopher

I. De Beaufort

The effect of glycaemia on the cerebral oxygenation in very low birth weight infants, as measured by near-infrared-spectroscopy

J. Vanderhaegen

High incidence of eating, sleeping and behavioural disorders in children born preterm

E. Deschmann

Influence of intra uterine growth restriction on endothelium-dependent vasodilation in rat offspring

I. Grandvuillemin

Human fetal amino acid metabolism at term: whole body protein synthesis and phenylalanine to tyrosine hydroxylation rates

C. van den Akker

Effect of 100 versus 200 mg/kg of porcine surfactant on disaturated phosphatidylcholine kinetics in preterm infants with rds

M. Facco

The stress of being born

H. Lagercrantz

FMRI in the neonatal and infant brain

P. Huppi
